## **FOR IMMEDIATE RELEASE**

# **Top regional underwriter Security Title Guarantee Corporation continues run of historic success**

BALTIMORE – June 10, 2021 – [The Security Title Guarantee Corporation](#), a strong regional title insurance underwriter committed to being a true partner for its agents spread across the eastern part of the country, is poised for another successful year following its best first quarter ever.

Revenue has been trending up in general over the last several quarters for the company, which is headquartered in Maryland. The latest period is the third consecutive quarter of record-breaking revenue for Security Title.

As a privately held entity, the company is pleased to announce a 75 percent spike in first quarter revenue compared to the same period last year. While that was impressive on its own, Brian N. Rogers, Security Title’s Senior Vice President, was quick to point out that the period from January through March 2021 was the fifth quarter in less than two years with record-breaking revenue. That’s a very good statistic for a company with almost 70 years of history and experience, no matter the current market conditions.

“Like many in the industry, our expert staff have worked very hard over the last year to make sure our great agents had what they needed from an underwriter perspective,” Rogers said. “We know how hectic this year has been on everyone, but sharing this news was important to us because it is a tribute to the hard work, dedication and expertise of our agents. We can only be successful when our agents are successful.”

Revenue has been just one marker of accomplishment. According to the company, its Surplus as Regards Policyholders increased almost 60 percent during the last year, including by 10 percent in the first quarter. Company president Ted Rogers is excited by the strong first quarter but promises the entire Security Title team will continue to work hard alongside each other and its agents so this record success can be sustained.

“The Security Title Guarantee Corporation has always been a top underwriting choice for agents who value being connected to the people and the providers they work with in this industry,” he said. “We will always put value in personal relationships, but we want everyone to know our company has always been a strong and stable choice in the

market. I'm proud of the strength we've shown over the last few years and look forward to continuing our great work for our agents."

The Security Title Guarantee Corporation, which was founded in 1952, is licensed to underwrite commercial and residential real estate title insurance policies in 15 states. It serves more than 500 title agents across the Northeast, Mid-Atlantic and across the South. The entire Security Title team takes pride in providing an unmatched level of personalized service across the company when it comes to underwriting expertise and educational tools and opportunities. Security Title is also a proud member of the American Land Title Association (ALTA) and several state associations.
